ROBERTHERS WHI CORRECT & favor by for-

The sum will go down to-day on a Democratic administration. At high noon Grower Gereland will take the eath of office of the President of the United States, and the government will be texasediately surrendered into discensing. For the next four years he and his political party will direct and control government affairs, and will be held accountable to the nation for the manner in which they wield the power that has been piezed in their hands.

To-day we believe that fore-force, and we pity also the 110,000 to for you, but I have been arrested and control government affairs, and will be held accountable to the nation for the manner in which they wield the power that has been piezed in their hands.

To-day we believe that fore-force, at the control government affairs, and will be head accountable to the nation for the manner in which they wield the power that has been piezed in their hands. ence, at the close of President Cleveland's term, the popular verdict will be partners of these woman are not also in his favor; that it will be declared arrested and punished. The matter is that his has been a wise, bonest, able administration, during which the country has prospered, reforms been awrought, and the Union been more cases then in others where unlawful been before the public only a few the satisfaction of grand and petit jur-years; half a dozen years ago he was ors. It would be less expensive to the unknown beyond the limits of his county, yet in that brief period he has shal spotter corps at the few houses rison from obscurity until he is the cen-itral figure in America, all eyes being sneaking about under the caves and turned in his direction and everybody eyeing the keyholes of private reswatching and waiting to see if he will idences. If Mr. Dickson is honest and shine in this tottiest position as he has in earnest in his degires and efforts to shone in the less exalted ones that he suppress unlawful cohabitation, he will has occupied since he was dug up and turn his attention to the houses of prosti-brought out of the rough a few years ago. He has been called the man of destiny, but if we look back over his short public life we can find in it little of his success that may rightly be expected to hear and decide the Rudger of his success that may rightly of expected to hear and declare the Rauger charged to "back" or destiny. All success appeal case before the close of the man himself, to his vigor, his honesty, his integrity, his clear-headed-ness, and his ability. All the destiny there is about his career is the fact spected, that laws must be administhat the times demanded just tered in Utah as they are administered such a man as he, and he happened to elsewhere, the local court, with its be ready for the times and met the demand. His success in his first office elsewhere, the local court, with its law officers and hangerson, would channel. His success in his first office was naturally followed by his elevation and the imposing upon him of greater trist; this was aucceded by his further trist, and now by the placing of the man at the head of the nation, where he is to be tried to the last degree. There is no destiny in all this. It would have been destiny if a... Cleveland had been desting. The Hernato is gunstlessed of crime, the Saints would be in no worse fix than they are to-day, and the lome courts could do no more than they are to-day, and the was induced dissipulification and against an apparent want of akility. It was the wisdom of the voters that saw in him the material required that made Cleveland sheriff, mayor and governor, and which has now called him to the presidency. There has been no guess-work about the business, none of the cust-and-try experiment. We firmly believe that as President he will be equal to the cocasion as be has ever been; that has administration will be characterized by firmness, ability, honesty and reform.

People who expect an immediate required the man are the destination of affairs and inference in what it was a coid and prove of the man in the administration of affairs are going to be disappointed. LEPROSY OF THE JEWS.

Wild, Burning Itch, that Striker with a Thousand Electric Itching Needles.

Rebitor Altrona, Pa., Call.—I wish to say something in praise of that valuable medicine, Curicusa, which I saw advertised in your paper. I have he did not old leprosy, of which you read in the Bible, where the Jews first got it samong them, and did not know how to cure it. It has many other English names. I have had it on my body for over sixty years. No doctor could tell me what it was, and probably I never would have known, had I not seen the advertise ment in your weinable paper. First it is a scaly affection of the skin; next it looks like barnades on a vessel's bottom, or an old log; that has laid in the water for a long time, and just the same in my feet, knees, and chows, and by taking a microscope and looking at me it looks werse. In other words, we will call it ichithyosis, or fish skin; then comes on what I call the will burning itch, that will strike you with a thousand electric lichy needles. You cannot tell

Vanderbilt's Money Couldn't Buy It.

I have been a sufferer from rheumatism for twenty years, at times with aimost furbierable pain. I had the best medical treatment, and took all sorts of remedies, but with our relief. Being reduced almost to a skeleton, and not being able to walk even with crutches, I was induced to try Swift's Specific and it acted like a charm, and I am to-day entirely reflewed. Have thrown away my crutches and am in excellent beaith. I believe Swift's Specific will cure the worst cases of rheumatism.

Wertunfea, Ala., Sept. 28, 1884.—Abouteix years ago I became afficied with a very disagreeable skin disease, with large, dry sores and many crussed pimples on my face, hands and shoulder. The sore on my shoulder set out a hole nearly an inchideep, and the cancerous appearance of one of the sortes near my bye alarmed me very much. I ried all kinds of treatment, but found nothing that seemed to affect the disease. I dually decided to try 8.8. So on advice of a physician, and in a short time the soabs dropped from the sores and left my skin smooth and well. I consider 8.8.8 the cressest blood medicine made, and the only hing that will cure the disease with which i was afficted. I think my browthe was the credit of a terrible strack of malarial fever contracted while farming in the Tallapoos river assump. I can be found at my office in the court nouse at Westumpka.
